

COVID-19 UPDATE TO COMMUNITY

March 18, 2020 at 5:00 PM

Beacon Group's priorities continue to be the health and safety of our clients and staff, our mission and our service to our customers as we remain responsive to the concerns related to COVID-19. In addition to the obligation we all have, to help stop the spread of COVID-19, Beacon has considered how our service delivery impacts the people we serve, our staff and our business customers. Beacon Group has always promoted choice for people with disabilities regarding their employment options.

Beacon Group is open for all services and adhering to protocols and guidance issued by Arizona Department of Health Services and CDC, including precautions in terms of cleaning workspaces and vehicles diligently, limiting visitors to our buildings, and observing safe distances everywhere we work as recommended by the Arizona Department of Health Services. In addition, we offer the following updates regarding Beacon Group programs and services:

EMPLOYMENT PROGRAMS

- Beacon Group continues to offer all services following guidance from the Arizona Department of Economic Security (DES) Division of Developmental Disabilities (DDD), implementing measures necessary to reduce potential exposure and protect the health and safety of client members and Beacon staff.
- Program participants with compromised immune systems or who are more susceptible to respiratory illness are asked to remain home rather than attend programs at Beacon Group.
- When it is possible, Beacon employment services will be provided via phone or Email as the preferred delivery option.

BUSINESS SERVICES

- Beacon is committed to continuing to provide all of our services to our business customers as we have in the past. Beacon will contact you if we are unable to meet a business requirement, due date or shipment. If you do not hear from us, you can rest assured your work is on schedule or will not be interrupted. If you have questions, please reach out to your normal Beacon point-of-contact.
- Beacon Secure will be making all scheduled pick-ups. If your business will not be accessible for a regular shredding pick up, please contact us at 520-352-9951
- Beacon Secure accepts drop-off shredding at our Glenn location in Tucson. Transfer of materials is made within the guidelines of social distancing.

Beacon Group will continue to monitor the situation regarding our employment services and business services and communicate changes impacting our Beacon community on our website at www.beacongroupp.org/covid19-updates/. For guidance on how to protect yourself and stop the spread of COVID-19, visit azdhs.gov/COVID19 and cdc.gov/COVID19
